Clubhouse coming: David Lords, president of Laughlin Ranch, stands in front of what will soon be a 39,000-square-foot \$15 million clubhouse in the master-planned community. The golf course and about 20 homes are expected to be complete by the end of the year. A second bridge across the Colorado River just south of Harrah's is also in the works, Lords said. He said he expects the bridge to be completed in about two years and plan to donate it to the community. (Staff photo by Stacy Brandt)
